

KnockKnock

A simple android application for adding quick notes.

Need to take a quick note of something to buy, an address, or a startup idea? Then this is the app you've been looking for! No complicated setup steps needed, just type in what you came for.

You can access the note in no time by using the customizable and resizable widget, which opens the app on click.

Meeting

Tomorrow morning meeting at 1 PM

The image shows a mobile application interface. At the top, there is a red header bar. Inside this bar, the word "Title" is written in small white text. Below it, the main title "Cloud Webinar" is displayed in large white font. Underneath the title, the word "Description" is written in small white text, followed by "At 9 PM" in a larger white font. A thin white horizontal line separates the header from the main content area. On the right side of the header bar, there is a red circular button with a white plus sign. The main content area has a white background and contains three items, each in a white rounded rectangle. The first item is "Pray" in bold black font, with the subtitle "Mediation practice class at 8AM" in a smaller, italicized black font below it. The second item is "Grocery list" in bold black font, followed by a list of items: "Cooking oil", "Butter", "Milk", "Cheese", and "Sugar", each on a new line in a smaller, italicized black font. The third item is "Meeting" in bold black font, with the subtitle "Tomorrow morning meeting at 1 PM" in a smaller, italicized black font below it. At the bottom of the screen, there is a red bar with the text "© 2019" in white.
